As a final-year student (graduating in August) at the School of Electrical Engineering, majoring in Computer Engineering and Information Theory, I am interested in pursuing further development through an internship or junior job opportunity in Software Engineering, Game, Web or App Development.

Relevant Skills

- **Java (Spring), C/C++, Python, Git, SQL (PostgreSQL), MongoDB, cPanel, WHM, Docker**
- **HTML, CSS, JS, TS, Vue.js, Nuxt.js, Node.js, Angular (MEAN), React.js (Native), Next, REST API**

Work Experience

Head Organizer and Founder

ENGAGE GameJam

- Establishing and organizing a beginner-friendly hackathon focused on game development
- Developed a list and made some of game assets in **Unity** required for participants
- Worked on new site for project in **React (NEXT.js)**

Full-stack Developer

"Kongres Studenata Elektrotehnike i Računarstva"

- Developed a new website to facilitate registration and event information for 500 participants and 9 companies **Vue.js (NUXT.js)**

IT Coordinator

EESTEC LC Belgrade

- Developed front-end and initiated the back-end implementation for the organization's website learning new frontend framework (**Vue.js**)
- Maintaining and expanding websites using server management tools (**cPanel and WHM**)
- Successfully led and coordinated the organization's IT team of 50 people while learning how to conduct thorough code reviews and how to manage and maintain **Git** repositories
- Organized beginner web development workshops for focusing on **HTML, CSS and JavaScript**

IT Coordinator

JobFair - "Kreiraj svoju budućnost"

- Coordinated a team of 15 people to successfully upgrade and beginning to refactor the website (**Vue.js**) of the project where I learned how to make strategic plan and manage tasks
- Successfully migrated the project's website to newly researched hosting infrastructure while using **SQL** to connect tables between two different databases in **phpMyAdmin**

Educational History

BS Computer Engineering and Information Theory,
University of Belgrade, School of Electrical
Engineering

Applied Sciences & Mathematics,
IX grammar school Belgrade

Personal & School Projects

- Site for ENGAGE GameJam
- MobileApp for restaurant management
- Site for KSER
- Main website for EESTEC LC Belgrade
- New website for JobFair
- Working bot for AIBG hackathon
